## WEBSITE MARKETING SERVICES PAY PER CLICK

Search engine optimization or website marketing is a needed requirement for your web presence. We will ensure your web site gets the most traffic it possibly can. The traffic will be lead oriented and not just surfers. We will work with you to ensure the correct target audience.

Using the 2 largest paid services on the internet today Overture & Adwords, we will ensure your companies website is as competitive in the search engine placements as it is in the real world.

**PRICES START AT UNDER \$200.00. CONTACT US TODAY FOR MORE DETAILS ON THIS SPECIAL SEO OFFER.**

Think how smart you'd feel if you only advertised to motivated buyers? Instead of looking for customers, what if they were looking for you? This is the concept of pay for performance internet searching.

## WEBSITE MARKETING SERVICES ORGANIC SEARCH

Many people prefer to think of the long term investment of their website, and this means using the "organic search area" and not the pay per click area of the search results. Truthfully, people should not expect over night results in the "free" area of search engines. Our goal is to work with the keywords of your business, and ensure they are optimized for the best searches people are doing. This process involves reporting on current searches within your market and ensuring that the text within your website is representative of your business and inline with what people are typing in on the search engines. We do not work with link farms or other 'black area' SEO practices, our results come from hard work and a dedication to your business needs.

We have years of experience working with keyword analysis, and we will use this experience to ensure an excellent ROI for your website marketing expense. This service can be integrated with the website design and overall website services package.

We will provide complete submission results from all major search engines and directories as well as before and after SEO results on your main keywords.

We use all legal SEO techniques and no "black hat" strategies. These include effective copywriting for all your website pages, sitemap creations, effective meta keywords and descriptions for your site. As well, as alternate image text and many other SEO techniques for your website to do well in the organic search results.

**Call or email us today for a free no obligation demo of how we can change your search engine placement in a matter of minutes with our website marketing service and part of our website management services.**
